

Douglasville Tex.,
Nov., 20th. 1928.

Dear Cos. Lena:

Your merry letter was
duly received and much enjoyed.
I have passed it on, to Edna
first, and she will probably bring
it to Mt. Pleasant Sun., for we
your ladies have intended ever
this to send you a little token
of our appreciation of our Ga.
Cos. in the form of an oil
painting, subject, "Texas Blue
Bonnets" - and when I read
in your letter "just three days
until the anniversary of meet-
ing you personally," it made
me doubly sorry that our plan
failed to carry - I knew it was
about the time, and I carried
the picture to Mt. Pleasant last
Sat. expecting Edna to come over
Sun. for as she had an interest
in the gift, I wanted her to see

it. We four agreed on the subject as
The Blue Bonnet is our state flower -
It is largely original - I'm no artist
but think I can make a pretty picture -
Anne selected the frame & Extra. Though
there are prettier - or more showy subjects
but as this was from Texas, we all agreed
on Blue Bonnets -

It is awful to me, that Texas ever
Republican - Mr. Wilson was such a
strong Democrat that Anne said, as
we ^{all} have to finally go, she was glad her
father did not live to see it - Douglass -
ville has been called the head-water
of Bitter Creek of Democracy - and the
record was kept up - for, only three
Reporter votes ^{were} cast here and there were
the Methodist preacher and wife and
a bridge builder here from West Va.
The preacher moved same week for the
Annual Conf. convened Wed. of election -
However we may have a Hoover voter
in our new preacher - It was ^{Anti-}Catholicism
in the preachers and Ku Klux Klan
and most of the women - tho' they
"played like" it was prohibition - Mr. W.
was for State prohibition and not Feder-
-al - As the Catholics discovered America
I was perfectly willing to have a Catholic
President - Tho' I ~~believe~~ Smith would
have been assassinated if he had been
elected. Of all things most tiresome
to me, is denominational differences
and prejudice - If it were not for the
past 300 yrs. of religious freedom, ^{people}
would still be burning folks who differ
with them - and that, about what we

really knows — 3 — — I hope Evelyn
and Mrs. Floyd Cobbin will have a
wonderful trip and safe return — I
do not know whether circumstances make
us, or ~~we~~ make circumstances — but
my life has been such, that I would
not care for such a trip, now at my
age. — The my friend Mrs. Cartwright of Terrell
about 60 yrs older left last May for such a tour.

Sunday night — Tom, Edna and Thomas
came to see me to-day — John joined them at
Mt. Pleasant. As Anne is Pipe Organist she did
not come — I am glad she is very much in
love with organ music — She loves this more
than Piano music — Edna brought your pic-
ture with her and I will ship it this week —
It is a very modest in size — I hope your
wife, Cos. Jessie, will enjoy it as the work of
a "Greene" in the family, like — See —

4

Tuesday - This is a serial story,
and this is the last installment,
for your Blue Bonnet picture
is ready to be shipped. - Remem-
ber you must give pictures dis-
tance to get best impression -
and really this is characteristic of
the Blue-bonnet in the thousands
of acres in Texas - principally
West Texas - Some describe it
as like blue spreads, over the
plains - nothing definite - just
little blue flowers as far as
one can see - Mine is a sunrise
picture - Hang it in your
room and each morning
if you happen to think of
see it, let it remind you of
our meeting in Texas and
to one, exchange of letters -
I did not think to ask the

boys about joining The D.A.R.^s
But a record of the Greene
ancestry will be much apprecia-
ted by all of us -

asking to be lovingly re-
membered to all, and thanking
you in advance for the pictures
of Darnard's children I remain

Ever the same sincerely yours
"Cos. Mary."
